## ABOUT NP DISCOVERY 2027

The International Congress on Natural Products, Botanicals & Herbal Drug Discovery (NP Discovery 2027) will take place as a hybrid event on March 22-24, 2027 in Singapore & Online, bringing together global researchers, phytochemists, pharmacognosists, traditional medicine experts, biotechnology innovators, and pharmaceutical leaders. This premier international congress will focus on translational research in natural product chemistry, plant-derived therapeutics, herbal drug development, phytopharmaceutical standardization, nutraceutical innovation, and bioactive compound discovery. By integrating traditional botanical knowledge with modern drug discovery platforms, the congress aims to accelerate evidence-based validation and commercialization of natural therapeutics in global healthcare markets.

Singapore serves as a strategic gateway between Asia's rich ethnomedicinal heritage and the advanced pharmaceutical ecosystems of Europe and North America. NP Discovery 2027 will explore cutting-edge topics including metabolomics and phytochemical profiling, AI-assisted natural compound screening, marine and microbial natural products, sustainable sourcing of medicinal plants, regulatory frameworks for herbal medicines, clinical validation of botanicals, and intellectual property strategies in herbal drug commercialization. The hybrid format ensures strong global participation from academia, industry, regulatory agencies, and start-ups, fostering cross-continental collaborations and research partnerships.

Designed as a high-impact scientific platform, NP Discovery 2027 will feature keynote lectures, plenary talks, technical sessions, poster presentations, industry exhibitions, and strategic networking forums. The congress will emphasize innovation, commercialization pathways, clinical evidence generation, and sustainability in botanical drug discovery. Whether attending in Singapore or virtually, participants will gain actionable insights into emerging natural therapeutics, global herbal medicine markets, precision phytomedicine, and next-generation plant-based pharmaceutical technologies. Join leading experts and decision-makers to shape the future of natural products research and herbal drug development worldwide.

## WHY ATTEND NP DISCOVERY 2027?

- » Professional Networking
- » Knowledge Gaining
- » Skill Enhancement
- » Exposure to New Ideas
- » Partnership Possibilities
- » Access to Experts
- » Exhibit Your Work
- » Get Feedback on Ideas
- » Stay Updated
- » Personal Development
- » Encouragement and Drive
- » Cultural Exchange

## ABSTRACT TOPICS:

- » Natural Product Discovery & Lead Identification
- » Pharmacognosy & Medicinal Plant Science
- » Phytochemistry & Structure Elucidation
- » Advanced Analytical Technologies
- » Metabolomics, Chemometrics & Molecular Networking
- » Microbial Natural Products & Biosynthetic Engineering
- » Marine Natural Products & Extreme-Environment Bioactives
- » Bioactive Compounds & Mechanism of Action
- » Ethnopharmacology & Traditional Knowledge Inspired Drug Discovery
- » Disease-Focused Applications of Natural Products
